

## ART START STUDIO

We teach artists of all ages to discover their own creativity. Using exercises based on the Monart School Method, we teach artists shape recognition, and the foundation of drawing, progress into technique along with elements of art and design. Our classes begin with open-ended art activities for younger artists that use art play and progress into art study for older classes. Classes explore art media and techniques of master artists as well as diverse styles found in art from around the world. Our instructors approach the education of each student based on the needs, interest, and skill level of each individual. Art Start Studio stimulates each artist's growth and development

## WORKSHOPS FOR ALL AGES!

### TODDLER—(MOM AND ME) CLASSES

These students participate with an adult and enjoy 5-7 open-ended art  
 activities involving different art media each class. These classes develop  
 language and non-verbal skills. Young children become creative by what  
 they explore and attempt—NOT by what they produce.

Some examples of art activities include-  
 Squish Art, Jell-O Painting, Salad Spinner Art and More!

### 6-9 YEAR OLD CLASS -Class time Sat. 10-Noon 10 AND UP CLASS—Class Time Sat. 2-4 pm

The importance of art education applies to older artists as well as younger.  
 The students in the 6-9 and 10-and up classes experience the same  
 curriculum, however each classes is presented according to the development  
 and skill of each individual in that respective class. Obviously, the student in  
 the older class is ready for more advanced techniques. However, if the  
 younger child seems to be ready for a more advanced technique we will be  
 happy to provide them with that level of instruction. Each child is given the  
 individual attention and instruction they need. In addition to class time, we  
 also encourage the students to participate in various area art exhibits and  
 studio field trips.
