ART START STUDIO

We teach artists of all ages to discover their own creativity. Using exercises based on the Monart School Method, we teach artists shape recognition, and the foundation of drawing. Students progress into instruction on technique along with the elements of art and design. Our classes begin with open-ended art activities for younger artists that use art play and then progress into art study in older classes. Classes explore art media and techniques of master artists as well as diverse styles found in art from around the world. Our instructors approach the education of each student based on the needs, interest and skill level of each individual. Art Start Studio stimulates each artist's growth and development through visual art in non-judgmental studio environment.

Celebrating our 15th yr anniversary!
